CONSCIOUS PROMOTIONS RESPECTING OUR NATURAL RESOURCES

Aligned with the growing need to support social and responsible production, recycling and reutilization, we continuously re-examine the way we approach our product and material selection, manufacturing and print production processes. Dedicated to sustainability and the development of a responsible collection, we can project our brands and environmental goals whilst aiding the reduction of landfill waste. We hope to inspire you with this collection full of both environmentally as well as budget-friendly tips, hands-on ideas and new exciting products.

LET US ALL RECYCLE !

> PET, one of the most widely recycled plastic in the world. Recycled polyethylene terephthalate is known as RPET and it can be used to make many products including recycled bottles, fibre for polyester bags, fabrics for clothing, and much more. Make the most of our efforts to recycle and reuse all possible waste. This handy 3-in-1 waste bin bag helps to efficiently separate various waste items for recycling and is made of RPET.

Collection

PET bottles are sorted, shredded, washed, impurities are removed and then the plastic is melted and reformed into flakes or pellets.

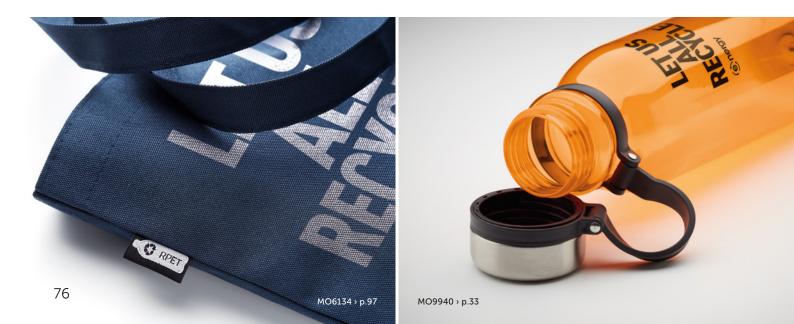

Processing

The melted pellets can be reused for new injection of items or spun into a thread for fabrics just like virgin plastics or threads.

New RPET products

With the Recycled PET a large variety of new products of equal value can be developed.

EASY TO USE WASTE BIN BAG 3 IN 1

CAN BE USED SEPARATELY OR JOINED TOGETHER WITH HOOK AND LOOP CLOSURE AND EASY TO CARRY WITH THE ATTACHED HANDLES.

Three Bin MO6154 •

Set of 3 RPET non woven laminated recycling bin bags with handles to separate paper, plastic, metal and glass. The bags are connected via hook and loop closure so can be used individually or together. **Size** 45x30x30 cm **Print technique** Screen Printing,TI,TD

BETTER

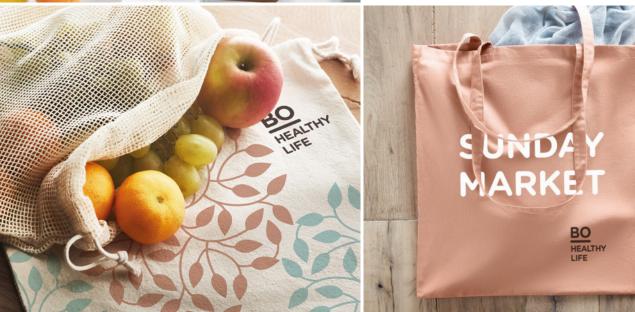

BAGS & TRAVEL

ENCOURAGE REPEAT USAGE AND BRAND VISIBILITY

Bags are invaluable not only due to the repeated use of the bag but also as a portable advertising space for your brand. Your logo or message is visible wherever the bag is used. To school, work, the gym or the supermarket, your brand will be seen everywhere. With the extensive personalisation options available, it can be as creative and impactful as you want. Avoid using single-use plastic bags and instead use personalised reusable grocery and shopping bags.

> Hemp is one of the oldest and most eco-friendly textile fabrics. It is made from fibres of the fast growing cannabis plant that is naturally pestresistance and that can grow without the assistance of fertilizers and pesticides. This makes it a 100% organic crop and very environmentally friendly. Not only the production process of the hemp fibers is very sustainable, but also due to the fact that these organic fibers are 100% recyclable.

SUPPORT YOUR LOCAL SHOP

> Times can be tough for local businesses as they strive to stay open. They give towns and cities a unique character and contribute to make an area a more enjoyable and fun place to live in. Shopping or eating at local businesses give your neighbours a chance to connect as well as supporting your local economy. Shopping locally also allows you to run errands on foot. This gives you the perfect opportunity to combine shopping with a healthy daily walk.

WRITING & ACCESSORIES

SMALL ITEMS WITH A BIG IMPACT

One of the most important things we have with us at all times, even in a growing digital world, is a writing instrument. There are many advantages of using promotional pens for creating brand awareness. It is not only cost effective but also always visible on any desk and always in use. With all the various options available, from materials to colours and designs, you can really make your brand stand out and at a price point to suit the budget available.

ANTIBACTERIAL PROPERTIES

Antibacterial

MO6141 > p.233

> Although not meant as a substitute for proper hand cleaning and hygiene regime, daily use products with antibacterial properties can help to avoid unnecessary spread of bacteria. These products contain a special additive (nano silver) with properties that inhibit the growth of bacteria on the item. This does not guarantee protection from viruses.

APPAREL & ACCESSORIES

A WELL DESIGNED WALKING ADVERTISEMENT

Choose the most appropriate hat, cap, sunglasses or lanyard and personalise them to your own design and wishes. Your brand will be on view whenever these items are worn or used and will easily get noticed. These items are not only for company events or recreational activities, but are also a trendy and useful accessory. Next to the extensive range of products, extensive personalisation options are available to ensure that you find something to suit the requirements both you and your brand.

valla

NAIMA CAP, A LONG-LASTING CAP PRODUCED IN HEMP. THIS MATERIAL HAS ONE OF THE LOWEST CARBON FOOTPRINT.

In addition to a 100% cotton, poly-cotton or polyester baseball cap, you can now also have the option for a version made of 100% pure hemp fibre. This natural and eco-friendly fibre is UV resistant and helps reduce sweating due to its natural breathability of the fibres. The adjustable strap at the back is made of the same hemp material and includes a silver coloured brass buckle for the perfect fit.

5 panel baseball cap in 100% hemp fabric 370 gr/m² with brass clips on adjustable strap closure. 5 stitched eyelets in matching colour. Size 7 1/4. **Size** 21x16x11 cm **Print technique** Screen Printing,TD,T1,E

100% nylon windbreaker. Light weight water repellent jacket. Collar with integrated hood. **Printing techniques** Screen Printing*,TT,TD,E

PRINTING TECHNIQUES

HAVING YOUR LOGO PRINTED WITH THE WIDEST RANGE OF PRINTING TECHNIQUES HAS NEVER BEEN SO EASY. THESE ARE THE MAIN TECHNIQUES USED TO PRINT YOUR LOGO.

SUBLIMATION

Sublimation is one of the few methods you can print full coloured images onto hard surfaces or polyester coated items. Number of colours is unlimited for complete customised logos.

DOMING

The doming procedure consists of printing the logo on a self adhesive label domed with an epoxy resin layer. It is a durable solution and cannot be easily scratched or dented.

DIGITAL LABEL

Digital Label is used on items where no other technique can be applied. With his method full colour label is printed and stuck on the most optimum position of the product.

DIGITAL PRINTING Digital printing is done by placing the product under a four-color digital printer. Compared to the conventional technique it is a more environmental friendly solution.

DIGITAL INLAY Digital inlay is a piece of paper, printed on a four-colour xerographic printer which offers photographic image quality and sharp text, it is then placed in the selected print template position.

BUTTON The print is carried out prior to assembly of the item. This allows for a full customised design.

DIGITAL TRANSFER

Digital Transfer is one of the most popular methods for full colour logos and designs. This Four Colour Process hits over thousands of colours resulting in a photographic quality decoration.

SCREEN TRANSFER

Economic option for simpler designs. The logo is printed on a sheet by means of serigraphy (which allows 1 to 8 colours) and then transferred to the product.

CERAMIC TRANSFER

The technique of ceramic transfer printing is applied to ceramic promotional cups and items where the logo is printed on a sheet and transferred by water.

SCREEN PRINTING

Main advantage of screen printing is the unique result you can achieve. It can be applied on a variety of materials but mostly used on fabrics since a larger size can be achieved.

PAD PRINTING

Pad printing is a technique where rubber stamps are used to print the logo on the item. With this technique you achieve a sharper finish and a perfect colour matching (PMS) is achievable.

ROUNDSCREEN

Round screen printing is a method that allows round personalisation. It is an optimum solution for the popular reusable bottles since, due to its form, the print position is larger than can be achieved using the traditional printing method.

EMBOSSING

Embossing is a popular technique for marking products made of leather, PU or cardboard. The logo is stamped on the material being sunk and making it indelible.

EMBROIDERY

Embroidery is a very popular technique in products such as caps, textiles or advertising bags where the finishing touch is in the sewn logo with woven threads.

LASER ENGRAVING

Laser engraving can be applied to items made of natural materials like wood and metals. With laser engraving the result of branding is precise, clean and permanent.
