

Collection 2019

Following the family tradition, passion
for creation and love for the crafts, we have
produced leather goods for three generations.

We are inspired by beauty of people,
their true lives and dreams, for whom
and because of which, we create unique
and sophisticated things.

We strongly believe that the produced
goods have soul, because each of them is made
by hand, and their definite and unique shape
reflects the artistry of our masters.
